Vacation Application Checklist

Before you submit an application to the City, please check this list to verify you are not missing essential information. An incomplete application will delay the approval process.

- Basic Information.** Provide a general location of the site, a legal description of the area to be vacated and the reason(s) for the request.

- Review Criteria Responses.** A vacation request may be approved if the City Council finds that the applicant has shown that all of the following criteria are met. On a separate sheet of paper, prepare a detailed written response using factual statement (called "findings of fact") to explain how the proposed Vacation complies with each of the following review criterion. Each criterion must have at least one finding of fact and conclusion statement. See Attachment B for an example.
 1. The request vacation is consistent with relevant Comprehensive Plan policies and with any street plan or public facility plan.
 2. The requested vacation will not have a negative effect on access between public rights-of-way or to existing properties, potential lots, public facilities or utilities.
 3. The requested vacation will not have a negative effect on traffic circulation or emergency service protection.
 4. The portion of the right-of-way that is to be vacated will be brought into compliance with Code requirements, such as landscaping, driveway access, and reconstruction of access for fire safety.
 5. The public interest, present and future, will be best served by approval of the proposed vacation.

- Site Map.** Submit a map showing the area around the proposed vacation as well as the area to be vacated. The scale of the map must be large enough that all dimensions and distances can easily be measured for accuracy. The map must include all the items listed below. If any item listed for inclusion on the plan is not provided, please include a written explanation.
 - Existing address (if any) of adjacent property, or section, township, range, and/or lot and block number sufficient to define the location of the site.

 - Date plan was drafted and north arrow

 - Scale of plan. (Use a standard engineering scale, such as 1 inch = 60 feet, or 1 inch = 100 feet unless otherwise approved by Planning staff. Map must be clearly readable and measurable land fully dimensioned.

This list must be signed and dated by the preparer; the source of the data should also be indicated. If less than 100 percent of the affected property owner's signatures are submitted include the area of all affected properties and the area of the properties whose owners have signed the petition.
- ❑ **Affected Property Map.** Submit one map (usually a County Tax Assessor's map) that identifies the affected properties as defined in ORS 271.080. See Attachment A for an example.

List of Affected Properties

ORS 271.080 sets the boundaries of the “affected” area, and describes it as “the land lying on either side of the street or portion thereof proposed to be vacated and extending laterally to the next street that serves as a parallel street but in any case not to exceed 200 feet, and the land for a like lateral distance on either side for 400 feet along its course beyond each terminus of the part proposed to be vacated.”

After you have identified which properties are within the boundaries as specified by ORS 271.080, write down the County Tax Assessor’s map and tax lot number associated with each, and obtain the name(s) of the current owners of record from the County Tax Assessor’s office. After the list is prepared (typed or clearly printed), indicate who prepared the list, on what date, and the source of the data. (Use another sheet, if necessary).

Attachment B - Example of Findings of Fact

Criteria for findings of Fact.

A Vacation will be approved only if the City Council finds the application conforms to ORS 271.080. Before the City Council can approve an application, the applicant must submit information that adequately supports the application. If the applicant submits insufficient or unclear information the application may be denied or delayed.

Format for Findings of Fact:

Statements addressing individual criteria must be in a "finding of fact" format. A finding of fact consists of two parts:

1. Factual information such as the distance between buildings, the width and type of streets, the particular characteristics of an existing use, etc. Facts should reference their sources: on-site inspection, a plot plan, City plan, etc.
2. An explanation of how those facts result in a conclusion supporting the criterion.

EXAMPLE:

Criterion: The requested vacation will not have a negative effect on access between public rights-of-ways or to existing properties, potential lots, public facilities or utilities.

Fact: State fact(s) relating to the question. "This section of Dogwood Lane rights-of-way has never been improved to carry vehicular traffic. All adjacent properties have access to other public streets and do not need access to this portion of Dogwood Lane rights-of-way."
